

Dear WSD3 Families,

The Widefield School District 3 Board of Education has approved boundary changes that will take effect in the 2019-2020 school year.

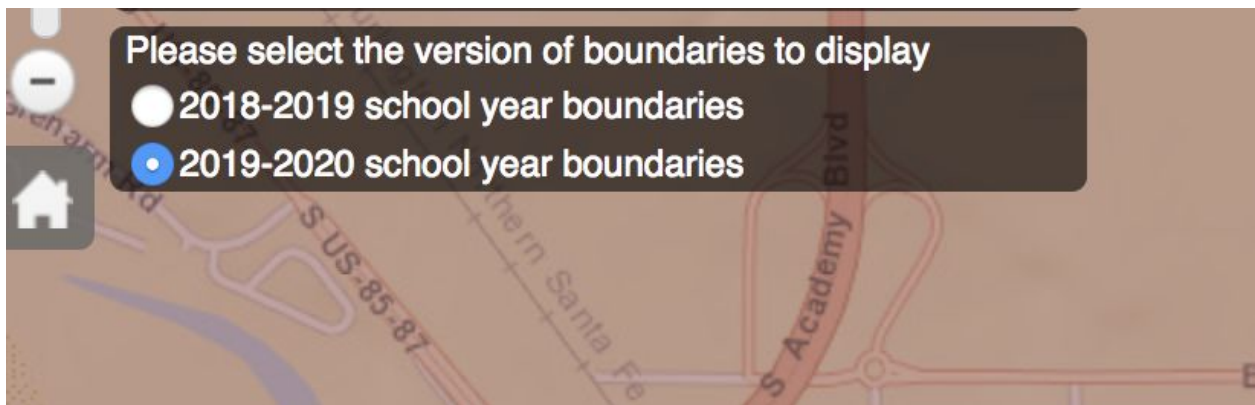

The boundary changes are due in large part to the construction of Grand Mountain School, the new K-8 school being built in the Lorson Ranch neighborhood.

Maps of the new boundaries can be found on our [School Site Locator](#) or by visiting the Believe page on the district website: [wsd3.org/believe](http://wsd3.org/believe). Below is a four-step process to view current and new boundaries.

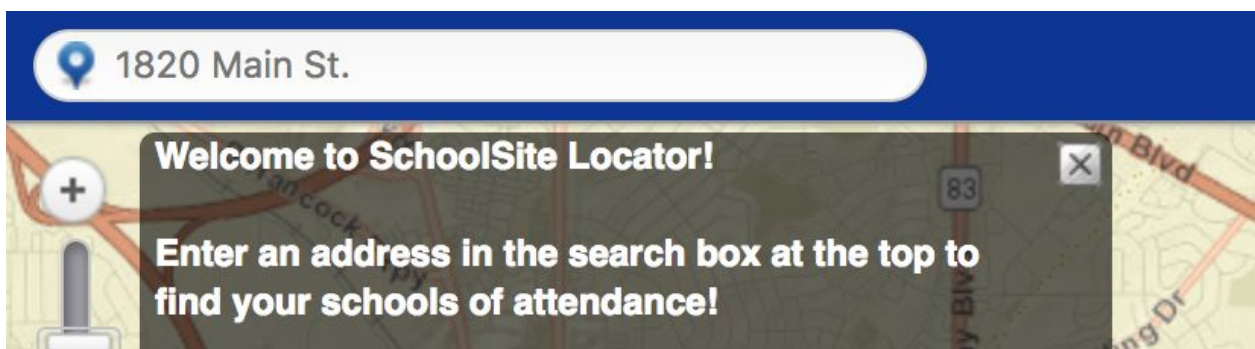

**STEP ONE:** Go to the School Site Locator web address:

<http://apps.schoolsitemlocator.com/?districtcode=01167>

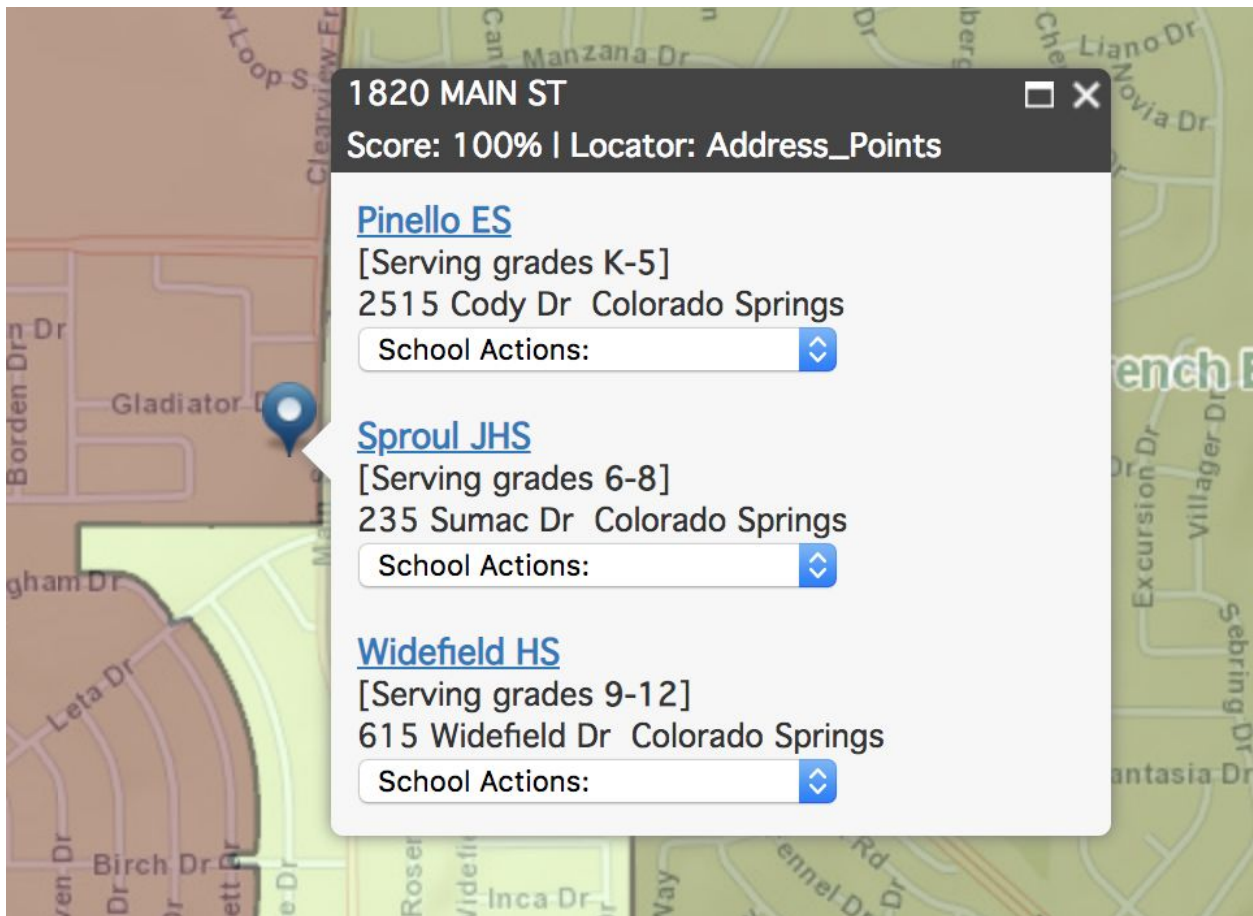

**STEP TWO:** Select the version of boundaries to display (click the bubble next to school year)

**STEP THREE:** Enter your address

**STEP FOUR:** A list of schools will automatically appear for your entered address

*\*\*If your address does not show up, click the map near your home to determine your home school(s)*

Please contact your child's school if you have any questions.

Respectfully,

Samantha Briggs  
Director of Communication  
Widefield School District 3
